"Then I saw a new heaven and a new earth for the first heaven and first earth had passed away."

Revelations 21:1

Worldwide Economic crises, homelessness, unemployment, sickness, disease, pollution, and, worthless college degrees are the bi-products of a Divine Reconstruction program that is currently underway. This planet is changing at an alarming rate as one cycle of time is ending and a new one is emerging. The destruction of one regime and the birth of a new one can be a blessing or a curse depending on the source that your spirit is emanating from.

However, before a new system can be implemented, the old one must be torn down. Therefore, the beastly system that we incarnated into is in the process of being destroyed. Anyone familiar with the demolition process in a technologically advanced society understands that

many things must take place before a structure can be destroyed. Permits must be applied for, the contractor must have clearance on multiple levels, careful observation and removal of valuable elements for re-use purposes occurs, and the date of the final destruction must be prescheduled to ensure no one is hurt in the process. This is exactly

what is happening on this planet at this time. There are complex interdimensional systems that must be removed before the divine system can be re-established.

To do this, systematic events are **occurring** in the spiritual world that is playing themselves out in our physical reality. The members of the Golden Race will be spared if they return to nature and adhere to the natural laws that will once again govern our reality. Before the re-emergence of the Divine System, many things must take place to purify and cleanse this toxic reality that we collectively call the Third Dimension to lift it back up to its original majestic origins.
